

## TigMate® Welding Gloves

The TigMate® is made from the finest top pigskin grain leather which is known for its breathability, softness and comfort. As TIG welding only generates low heat with minimal sparks the glove is unlined, and the soft pig grain leather provides optimal dexterity providing the wearer with improved touch sensitivity.

### Features

- Quality soft pigskin grain leather.
- Unlined for dexterity and soft touch.
- Clute pattern.
- Sewn with heat resistant aramid thread.
- Available in two lengths: 280mm and 380mm.
- Various sizes: MED, LRG and XLG.

### Standards & Certifications
