

Fire Blankets

Elliotts' Fire Blankets are made from fire-resistant fibreglass and come in a durable silk screens red wall bag.

A fire blanket can be used for multiple different ways, but the 2 main ways include:

1. **Cover the flame with a blanket** – The fire blanket can only be used to cover a small fire, cutting off the oxygen source from the surroundings and the fire.
2. **Cover yourself with the blanket** – Protect yourself against the fire.

Features:

- Easily mounted – Suitable for hanging inside of a cupboard door
- Quick-release black pull tags
- Fast and easy installation
- Manufactured to meet the requirements of AS/NZS 3504:2006
- Available in 1x1m and 1.2x1.8m size.

Always read the instructions on your fire blanket before use. Fire blankets can only be used once. Please ensure to discard once used and replace it with a new fire blanket.

Part Number	Size
FGB1010	1000mm x 1000mm
FBG1218	1200mm x 1800mm
