

The Certified Rigger - Cowhide

WORX600

GENERAL DESCRIPTION

Force360 introduces Australia's first Australian Standards Certified leather riggers glove. The Certified Rigger ensures a more comfortable and consistent fit, along with abrasion, cut, tear and puncture scores that can be relied upon.

FEATURES

- ▶ AS/NZS 2161.3 certified mechanical score claims
- ▶ AS/NZS 2161.2 certified azo dye, chromium and chemical free
- ▶ AS/NZS 2161.2 certified sizing and dexterity
- ▶ Genuine select cowhide construction
- ▶ Wing thumb
- ▶ Stitch free palm

CONSTRUCTION MATERIALS

- ▶ 95% Leather
- ▶ 3% Polyester
- ▶ 2% Elastic

STANDARDS & CERTIFICATION

Many gloves in the market today claim compliance to EN388 and show a mechanical score symbol. However with many glove brands sourcing from multiple factories, inconsistencies can occur and such compliance claims may not always be able to be validated. Ultimately this may put the glove wearer at risk.

Force360 source their entire WORX range of leather gloves from a single manufacturing partner to ensure consistency and reliability of product. Force360 have recognized the weakness of compliance claims and have engaged **SAI Global** to certify their products and manufacturing facilities for complete peace of mind.

Force360 WORX leather gloves are certified by **SAI Global** to Australian Standards AS/NZS 2161.2:2005 (EN420) and AS/NZS 2161.3:2005 (EN388) for Mechanical Performance. Mechanical risk is the risk caused by abrasion, blade cut, tear and puncture to the wearer of the glove. A tested item is given a performance rating of 1 to 4 (lowest to highest) on some or all of the listed categories. The 'blade cut resistance' test is an exception as it measures from 1 to 5.

For **Certified Australian Standard** protection, only wear gloves with the Red Tick Tower.

USES

- ▶ Construction and mining
- ▶ General purpose utility work glove
- ▶ Truck and transport industry
- ▶ Rigging industry
- ▶ Timber and forestry

PART NUMBER | SIZES

GWORX600 | S, M, L, XL, XXL
