

# Blade 5 Mechanics Glove

# FPRMX5

## GENERAL DESCRIPTION

The Force Performance Range (FPR) from Force360 have been designed and developed in Australia and incorporates the latest technologies and materials in their construction. The FPRMX5 Blade Cut 5 is the premium mechanics glove with Cut level 5 protection.

## KEY TECHNOLOGY

## ADDITIONAL FEATURES

- ▶ Personal ID area to record wearers name or issue date
- ▶ Silicon enhanced grip
- ▶ Reinforced double stitching for increased durability

## CONSTRUCTION MATERIALS

- ▶ 39% Synthetic Leather
- ▶ 25% 4-Way Spandex
- ▶ 25% HPPE
- ▶ 4% Hook & Loop
- ▶ 7% Lycra

## STANDARDS & CERTIFICATION

Many gloves in the market today claim compliance to EN388 and show a mechanical score symbol. However with many glove brands sourcing from multiple factories, inconsistencies can occur and such compliance claims may not always be able to be validated. Ultimately this may put the glove wearer at risk.

Force360 source their entire FPR gloves from a single manufacturing partner to ensure consistency and reliability of product. Force360 have recognized the weakness of compliance claims and have engaged SAI Global to certify their products and manufacturing facilities for complete peace of mind.

Force360 FPR gloves are certified by SAI Global to Australian Standards AS/NZS 2161.2:2005 (EN420), AS/NZS 2161.3:2005 (EN388) Mechanical Performance. Mechanical risk is the risk caused by abrasion, blade cut, tear and puncture to the wearer of the glove. A tested item is given a performance rating of 1 to 4 (lowest to highest) on some or all of the listed categories. The 'blade cut resistance' test is an exception as it measures from 1 to 5.

For Certified Australian Standard protection, only wear gloves with the Red Tick Tower.

## USES

- ▶ Glass handling
- ▶ Knife work
- ▶ Metal handling
- ▶ Maintenance
- ▶ Shipping
- ▶ Logistics and warehousing
- ▶ Automotive

## PART NUMBER SIZES

GFPFPMX5 S, M, L, XL, XXL

## GLOVE CARE

Machine Wash <40°C  
Cold Water Rinse  
Dryer <60°C

## PACKAGING

1 pair per hang cell  
12 pair per inner pk  
72 pair per ctn
