

Welding Glove Savers

A **Glove Saver** is designed to do what its name says, “save your gloves”. By wearing a glove saver, you provide additional radiant heat protection to the back of the hand as well as additional abrasion and wear protection to the palm area. Elliotts Glove Savers come in three styles:

Standard Glove Saver

Features

- Aluminised back to reflect radiant heat
- Chrome leather palm and cut off thumb area.

Part Number	Description	Size
AGS4L	Left Hand	LRG
AGS5L	Right Hand	LRG

Reinforced Glove Saver

Features

- Aluminised back to reflect radiant heat
- Chrome leather palm and cut off thumb area
- Back reinforced with an extra layer of leather.

Part Number	Description	Size
AGS10L	Left Hand	LRG
AGS11L	Right Hand	LRG

High Heat Glove Saver

Features
