

Fitted Hose

AS

Part No.	Single/Twin	Gas type	Colour	Length	Nominal bore diameter	Fitting	Standard
308976	T	Oxy/Acetylene	Blue/Red	2.5 m	5mm	5/8"-18 UNF RM + LH both ends	AS1335
308693	T	Oxy/Acetylene	Blue/Red	5 m	5mm	5/8"-18 UNF RH + LH both ends	AS1335
308694	T	Oxy/Acetylene	Blue/Red	10 m	5mm	5/8"-18 UNF RH + LH both ends	AS1335
308624	T	Oxy/Acetylene	Blue/Red	15 m	5mm	5/8"-18 UNF RH + LH both ends	AS1335
308815	T	Oxy/Acetylene	Blue/Red	20 m	5mm	5/8"-18 UNF RH + LH both ends	AS1335
308904	T	Oxy/Acetylene	Blue/Red	25 m	5mm	5/8"-18 UNF RH + LH both ends	AS1335
308755	T	Oxy/LP Gas	Blue/Orange	5 m	5mm	5/8"-18 UNF RH + LH both ends	AS1335
308834	T	Oxy/LP Gas	Blue/Orange	15 m	5mm	5/8"-18 UNF RH + LH both ends	AS1335

Features

- All COMET hoses undergo stringent quality checks, ensuring quality and compatibility with relevant COMET hose fittings.
- Colour coding of hoses and different threads for fuel and oxygen prevents incorrect connections of hoses to the wrong gas type.
- COMET factory fitted hose assemblies are available in twin hose configurations. This helps keep the work area tidy and reduces the risk of damage.
- Secure, specifically designed hose fittings ensure operator safety

Hose -The essential link

It is important to use the correct type of hose for the required gas(es) to be used. Any non-standard application should always be checked by and approved before being put into operation.

Pressure drops will occur through hoses and hose fittings, therefore allowances must be made to compensate for this when setting up equipment and adjusting regulators.

10 mm bore hose should be used for large flow applications and where long lengths of hose are to be used.

Colour coding of hoses and different threads for fuel and Oxygen prevents incorrect connections of hoses to the wrong gas type. CIGWELD twin hoses help to keep the work area tidy, which reduces the risk of hose damage.

Spare Parts

CRIMPING TOOL

For 5mm and 10mm ferrules Part No: 308647

Specifications

Oxygen and Acetylene hoses conform to Australian Standards AS1335-1995

Colour coding

Gas	Colour
Oxygen	Blue
Acetylene	Red
LP Gas	Orange

CIGWELD hose can be purchased either as a complete assembly with fittings or in single length plus appropriate fittings
