

Accessories

Radius Bar & Pivot

To be used in conjunction with Roller Guide (308729). The Radius Bar, when fitted to the Roller Guide, enables circles of up to 960mm diameter to be cut.

Ordering Information

Radius Bar & Pivot Part No. 308752

Roller Guide

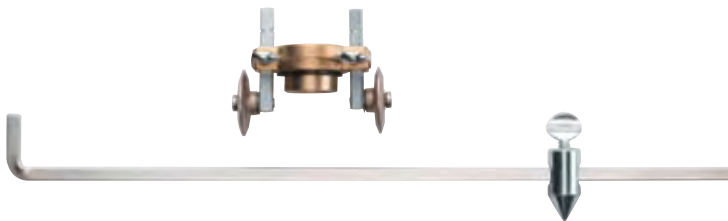

Suits COMET 3, VECTOR™, COLT™, SABRE, Spectra, Multi-purpose and Firefox blowpipes. Roller guide attaches to cutting nozzle and permits easy cutting of straight lines. The unit is fully adjustable, allowing it to be raised or lowered, or tilted for angle cutting.

Ordering Information

Roller Guide Part No. 308729

Combination Roller & Rotating Circle Guide

The COMET combination roller guide and rotating circle guide can be fitted to COMET torches to allow accurate control whilst cutting straight lines and circles.

- Fits COMET torches, type 41/44 tips
- Rotating head design allows full 360° cutting from one position – no need to move!
- Cuts accurate holes from 70mm (2¾") diameter up to 710mm (28") with radius bar provided
- Wheel hubs fitted with non-jamming guards
- Non-rusting stainless steel axle & guards
- Constant tip height – increases cut quality & speed
- Improves nozzle life
