

Electrode Holders

	DESCRIPTION	PART NO.
Twistlock Electrode Holder 250 Amp 	<ul style="list-style-type: none"> • Complies to AS/IEC 60974-11, Category A & B environments • Electrode capacity from 1.6mm to 5mm shank • Fully insulated • High quality & durable • Accepts 25mm² to 35mm² welding cable • 250 amp @ 35%; 200 amp @ 60% duty cycle 	646165
Twistlock Electrode Holder 400 Amp 	<ul style="list-style-type: none"> • Complies to AS/IEC 60974-11, Category A & B environments • Electrode capacity from 1.6mm to 6.3mm • Fully insulated • High quality & durable • Accepts 50mm² to 70mm² welding cable • 400 amp @ 35%; 300 amp @ 60% duty cycle 	646142
Twistlock Electrode Holder 600 Amp 	<ul style="list-style-type: none"> • Electrode capacity from 2.0mm to 6.3mm shank • Heavy duty high quality construction • Fully insulated • High performance • Heat resistant fibreglass handle • Accepts 70mm² to 95mm² welding cable • 600 amp @ 25%; 350 amp @ 60% duty cycle 	646343
Tweco Tong Electrode Holder 400 Amp 	<ul style="list-style-type: none"> • EXTRA HEAVY DUTY • Electrode capacity from 1.6mm to 6.3mm shank • Fully insulated • All position electrode grip featuring ultra quick electrode change • Long life cool running tong holder 	646344
Tong Electrode Holder 400 Amp 	<ul style="list-style-type: none"> • Electrode capacity from 1.6mm to 6.3mm shank • Fully insulated • All position electrode grip featuring ultra quick electrode change • Accepts 50mm² to 70mm² welding cable 	646214
