

Flexibility in cold conditions with liquid resistance. Enhanced wet and dry grip.

FEATURES

- Proprietary HPT™ coated palm and fingertips that remain soft and flexible in temperatures as low as -20°C
- Exhibits extreme cold flexibility and is highly comfortable in cold applications
- Soft, durable, and flexible coating that repels liquids to provide a firm wet or dry grip
- High dexterity in cold and wet applications

PROPRIETARY TECHNOLOGY

HPT™ - Superior Grip and Dexterity

The Hydropellent Technology (HPT™) is a unique proprietary coating that repels liquid and provides excellent grip in wet, dry and oily conditions. The HPT™ offers secure handling gloves that are lightweight, have superior grip and dexterity, whilst being supremely comfortable. Further, this unique coating has “encapsulated air pockets” which absorb and mitigate the effects of light vibrations.

SMART TECHNOLOGIES

THERMSMART

This is the art of providing cold protection.

FITSMART

This is the art of making Ninja® gloves feel like a second skin.

GRIPSMART

This is the art of providing outstanding grip to Ninja® gloves in dry, wet and oily conditions.

HAND CARE TECHNOLOGIES

REACH Compliant

Sanitized®

ISO 9001

APPLICATIONS

- Materials handling and assembly
- Warehousing
- Shipping and receiving
- Plumbing
- Cold storage
- General purpose
