

Pilot Brackets & Adaptors

Pilot Magna Mount Bracket

The strong magnet in the Pilot magna-mount bracket allows temporary placement of the Pilot unit on any steel surface. Each magna mount bracket comes with a built in safety bungy that protects the unit from damage should it be accidentally dislodged and a magnetic belt clip adaptor which allows the extended belt to be attached to a metal surface at the other end.

Pilot Wall Mount Bracket

The Pilot wall mount bracket can be permanently fixed to any flat surface or to Pilot Multi-Post. The built in Twist-lok feature means the Pilot unit can be quickly attached, or removed, from the bracket as required.

Product Features:

- Permanently fix to any flat surface (Wall Mount)
- Temporarily attach to any metal surface (Magna Mount)
- Pilot body connects to the twist-lok feature
- Supplied with belt wall receiver
- Suitable for use when posts and cones are not ideal
- Accepts Pilot lights and sign holders
- Built-in safety bungy (Magna Mount)

4-Way Receiver

The 4-way receiver allows up to four Pilot belts to be terminated simultaneously, avoiding the need to purchase additional Pilot bodies.
